Wind Powered Generator

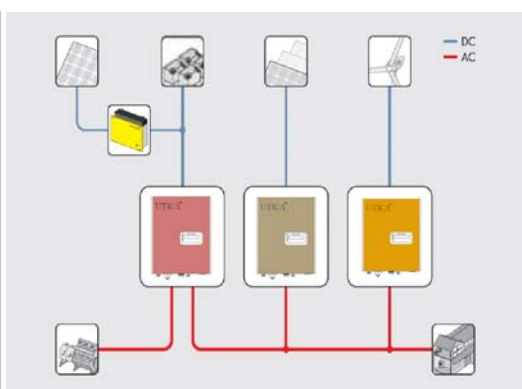

UTICA® Wind MobileGrid is an off-grid solar power system that works 24-hours a day, powered by photovoltaic modules, complementing your existing energy consumption and hence, reducing electricity bills and carbon footprint.

The easy deployable system makes commissioning within minutes possible. All required operational settings can be made quickly and easily in just a few steps. The UTICA® Wind MobileGrid is powerful, extendable and takes on all control processes.

Its first-class intelligent power processing unit ensures maximum battery life. It also features impressive efficiency, a rugged metal enclosure and active cooling system. With an output rating of 230V and 50 Hz, the UTICA® Wind MobileGrid is designed perfect for any location.

Technical Data	Wind MobileGrid 5000
Capacity	5000VA
System Voltage	48VDC
Energy Management	UTICA Intelligent Controller Processor
Power Inverter	
Output Wave Form	Pure Sine Wave
Display Mode	LCD
Display Parameters	Battery Voltage, Status parameters
Cooling Mode	Fan
Rated Output Voltage	110/120/220/230/240VAC
Wave Distortion	≤4%
Output Frequency	50/60 Hz±0.05Hz
Dynamic Response	0.05
Overload Capacity	120% 1min,150% 10s
Inverter Efficiency	Maximum 90%
Noise (1m)	≤40dB
Wind Turbine	
Turbine Pmax	5000Wp
Output Voltage	AC220V
Top Weight	485 (KG)
Tower Height	Guy Cable Tower/6M
Speed Regulation Method	Electromagnetic Control
Stop Method	Electromagnetic brake
Wind Energy Utilized Coefficient	30%-40%
Range of Working Temperature	-45℃-60℃
Battery	
Capacity	48V500 Ah
Certificates and permits	www.utica.sg
Last revision: January 2013	
Remarks	Every wind turbine is designed for either on-grid or off-grid usage. Each product is equipped with a specially designed magnetic generator that lowers torque and creates a higher generation of electricity, thus making our products superior in efficiency when compared to other products on the market today.

- UTICA Wind Mobile Grid 5000 Series**
- System capacity 5kVA
 - Indoor system
 - Reliable, robust and top of the range
 - Extremely powerful
 - system efficiency
 - Quality solar cell with TUV and CE accredited modules
 - UPS built-in
 - Overload and over-temperature protection
 - Energy management system
 - Intelligent controller and monitoring system
 - Supply up to 24hrs uninterrupted solar power
 - Built-in transfer relay provides reliable backup power capability
 - Field Serviceable
 - Roof or ground-mounted solar panels
 - 5 year warranty, (a 10 year service plan can be purchased)
 - 20 year warranty on modules
 - General appliances, multi air-conditions, washing machine, computers, refrigerator and satellite receivers

Off-grid System
